

**UBS Think Tank in Wolfsberg**

**Dr. Patrick Dixon, Futurist, Chairman of Global Change Ltd., London, UK**  
**The Global Crisis: What Future Will Green Technologies Create?**  
**Thursday, 30 April 2009, 4.00 to 6.00 p.m.**

Dear Sir or Madam

To keep the economy together, President Obama is guaranteeing the banking sector and encouraging liquidity. However, in order to take the economy forward, he is pinning his hopes on infrastructure and on green technologies. But what exactly are "green technologies"?

Dr. Patrick Dixon is esteemed by many as the foremost European futurist, and is considered one of the top 20 Futurists worldwide. He will present a "tour d'horizon" of green technologies, from medical technologies, through energy-saving technologies, to technologies that make renewable energy available.

And he will address the questions: Can green technologies actually save the situation and power the economy? If so, in what ways? How can we position ourselves to benefit from the coming boom in green technologies?

**Programme**

3.30 p.m. Welcome Coffee  
4.00 p.m. Introduction, Presentation and Discussion  
6.00 p.m. Buffet Dinner and Networking
